## Inventory Management

S&S can provide the tools and supplies you need for your job site (Rentals available). After the lot of items to be included in your trailer have been determined, S&S will deliver the trailer to your location.

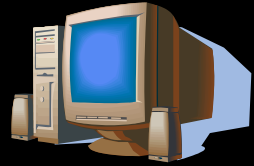

## **Customer or S&S Managed Inventory**

As well as providing inventory, S&S can provide Tool/Product Management personnel to manage your trailer inventory to keep complete inventory control of your SSAMS Trailer. Services include:

- ◆ S&S Consignment Inventory
- ◆ Cycle Counting
- ◆ Issues and Returns Process
- ◆ Outstanding Inventory Reporting/Tracking
- ◆ Calibrations Service Reporting/Tracking
- ◆ Product Service or Repair and more...

## Tool Tracking

Whether you or S&S manages your inventory, S&S can provide SSAMSII with your trailer to track and manage your on-site inventory. SSAMSII is a total asset control software system specifically developed to reduce tool room losses and improve inventory planning to deliver substantial savings that go straight to the bottom line. Lost and misplaced returnable assets account for between 7 and 17% of total project costs in large construction projects.

- ◆ Currently used in several Tool-Rooms throughout the US
- ◆ Easy to use
- ◆ Available for rent or purchase
